

# Sending in evidence from home

We love to see what students have been up to at home, whether it's academic work, exploring the outdoors, practising life skills, or anything else you can think of. Your child's teacher can use photos you send as a communication prompt, and link any relevant evidence to your child's targets. You can upload evidence from your computer or your phone: you just need to be able to access the parent portal (see our other help sheet, "How to log in to Evidence for Learning for the first time")

**Step 1:** Click or tap on 'Upload' in the top menu in the parent portal

**Step 2:** Click on "choose file" to upload up to 3 photos or videos from your phone, tablet or computer

**Step 3:** Tick any tags which are relevant (don't worry if none are!)

**Step 5:** hit "Submit" and you're done!

**Step 4:** Write a comment describing what's happening in the photos or videos, or anything else you want to tell your child's teacher
