

Dear Families,

Here we are at the end of another very busy week!

This week we had some volunteers from Astra Zeneca coming into school to run a full day 'Action for the Environment' workshop with a group of children. They explored: What is happening to the Environment, why it may be happening and what we can do to resolve it.

Bees Class News

Bees have been learning about life cycles by exploring the sensory story of The Hungry Caterpillar. They also used their hands or a brush to paint pictures of the fruit the caterpillar ate in their story.

Balmoral Class News

This half term, Balmoral class are working learning out shapes in maths and using positional language, as well as learning about symmetry.

In English we are reading two stories: A Midsummer Night's Dream and Stuck! For A Midsummer Night's Dream, we are working on learning the different character's names and ordering the first part of the story. In Stuck! we are learning to remember key parts of the story and listing the objects in the story with 'and'.

Balmoral enjoys participating in lots of physical and creative activities throughout the week.

Preparing for Adulthood SEND Festival

My Life: My Future
